

# Oracle BI & EPM

KPI Partners has successfully executed the world's largest and most complex deployments of Oracle Business Intelligence and Enterprise Performance Management.

## About KPI Partners

KPI Partners is an Oracle Platinum Partner who specializes in Oracle Business Intelligence (BI) and Oracle Enterprise Performance Management (EPM) solutions. The award-winning staff at KPI Partners comes directly from the product engineering departments at Oracle, Siebel, and Hyperion. In addition to consulting services, KPI Partners offers training, support, and exclusive pre-packaged analytic solution extensions for Oracle Business Intelligence.

KPI Partners works with both corporate technology departments and corporate business units to develop value-added business intelligence solutions, not just new technology deployments.

## Exclusive Oracle BI Functionality

KPI Partners' heritage in Oracle's product development organization means that we are always working with customers and Oracle to develop products and solutions to enhance your investment in Oracle's Business Intelligence. KPI's exclusive Oracle BI extensions include:

- Depot Repair Analytics
- Fixed Asset Analytics
- Manufacturing Analytics
- Metadata Advisor Tool
- Salesforce.com Analytics
- Student Information Analytics

## Blended Shore Model

KPI has the unique capability to mesh off-shore specialists with full-cycle onshore teams to create a "blended shore" resourcing model. Offshore resources are experts in Oracle BI technology and work within the KPI Partners Offshore Technology Center located in the heart of India's Silicon Valley. The blended shore resourcing model enables world class scalable services for a cost effective investment.

## KPI University

The expert staff at KPI Partners used their years of experience to create KPI University, a curriculum developed to give students a solid foundation of knowledge and skills on Oracle Business Intelligence and related technology. Course curriculums range from end-user fundamentals to advanced architecture and are offered via online classroom or on-site at your location.
