

Hyperion Smart View Training

This one day course provides students an opportunity to learn Essbase Excel Add-In and/or Smart View. We show students all the features and tricks for extending the power of Excel into Essbase reporting. We start by familiarizing students with the essential vocabulary and basic understanding of Essbase databases. Next, we move into the mechanics of building reports with the Excel Add-In and explore some of the more advanced features such as the Query Designer and cascading reports.

Class includes the following topics:

- Understanding of Essbase databases
- Building reports with Smart View
- Query Designer
- Explore advanced features such as cascading reports

Suggested Prerequisites:

- Knowledge of Microsoft Excel

Course Duration:

- 1 day
- Detailed schedule is given below
